Born from the abrupt changes in our way of life during the pandemic; living and communicating almost entirely digitally, Joe Iurato has created "Cabin Fever". Thematically comprised of whimsical and often child-like imagery, "Cabin Fever" reflects the artist's thoughts, emotions and struggles with a multitude of unfamiliar feelings brought on from a global disruption to our everyday existence.

Joe Iurato would like to acknowledge animator **Joe Andriola** and sound designer **Abel Okugawa** for their crucial contribution to his debut NFTs *Cabin Fever 1 & Cabin Fever 2*.
